

# Pentrunder®

## CONCRETE CUTTING SYSTEMS

### WRC Wireless Remote Control for HF-machines

#### Easy to use, ergonomic layout

- Same proven layout as the cable remote for easy transition.
- Ergonomic layout with joystick and rocker switches for smooth operation and reduced operator hand fatigue.

#### Avoid down time with long life rechargeable batteries

- Two re-chargeable batteries plus a cassette for AA batteries as standard.
- Approximately 20 hours of battery life at continuous operation.

#### Freedom of movement with one less cable

- Wide working range of over 160 feet allows the operator greater freedom of movement on the job site and greater visual supervision of the machine.
- One less cable reduces possible obstacles on the job site and reduces cable maintenance.
- The Wireless Remote Control comes as standard with a neck strap. Waist strap is optional.

#### Fits all Pentpak HF-power packs

- Simple integration with existing Pentpak HF-power packs, with or without, digital communication connectors.
- Use with any Pentrunder HF-wall saw, HF-wire saw or HF-core drill.
- Kit for easy fitting of the receiver on the Pentpak or Transport trolley.
- Remote and receiver pairing is resettable.

#### Extremely rugged, waterproof, and safe design

- Class IP65, yet light weight.
- Vibration, temperature, and humidity tolerant electronics.
- Designed to highest safety standards with system specific radio codes to prevent interference with other wireless systems on the job site.
